

Board Snapshot

Glenn Faber

Years Service as a director

2 years Van Orin, 2 years Northern Partners

Personal and farming (career) information

Farm with my wife Jane and my son Cole, also have one daughter Jenica that lives in the Peoria area. I have farmed in the LaMoille area since 1980. We raise corn and soybeans.

Thoughts/Vision of the current state and future of Agriculture

If you're able to manage your risks in these highly volatile times, I think a person will be able to be profitable. Management will be key in the 21st century.

Thoughts/Vision of the future of Northern Partners Coop

I think the future of Northern Partners looks very bright. We're going on our second year as Northern Partners and we've shown some excellent progress. Financially we look really strong and that is what we need for further upgrades of equipment and facilities. The staff and the employees of Northern Partners should be proud of the way things have come together. As a board member I would also like to thank the patrons for all the business they give us, it is very much appreciated.
