

Board Snapshot

Board Vice President, Marty Wheatland

Years Service as a director

20

Personal or farming (career) information

Married to Julie for 20 years. One son Casey, freshman @ Marquette Academy. Farm with (semi retired) Uncles Marty and Tom 1800 acres corn & soybeans. Currently Dayton Township Road Commissioner for past 12 years.

Thoughts/Vision of the current state and future of Agriculture

Efficiency and foresightedness will dictate the success of today's Farmer. If you can imagine that it can happen and make plans to enhance or counter the possibilities than good things are more likely to happen.

Thoughts/Vision of the future of Northern Partners Coop

I would like to see our Co-op provide the necessary tools and information that will allow our members to thrive and grow. Growth, careful and conservative growth, is important in our farming families as it will be in our Co-operative family. The future is bright for our Ag community as it is for NPC.
